

## Word Wall

Throughout the unit on soil erosion, new concepts and ideas will be introduced. Use the space below to help you capture the information by writing definitions, drawing examples or creating charts.

Soil Erosion	Transport	Turbidity
BMP - Best Management Practice	Infiltration	Subsoil
TSS - Total Suspended Solids	Sediment Basin	PAM - Polyacrylamide
Gully	Detachment	Compaction
Soil Texture - Sand - Silt - Clay	Turbidimeter	Rill
Slope (gradient and length)	Silt Fence	Baffle
Flocculate	Deposition	pH
Rain intensity	Sedimentation	Check Dams
Ditch	Coir	Soil Structure
Wattle	Aggregate	Velocity
Conservation Tillage	Grassed Waterways	Mulch
Cover Crops	Crop Rotation	Contour Tillage
