

Name That Tool Memory Game

Make the Cards

1. Print out the cards, double sided.
2. Cardstock is recommended, but not required.
3. Cut the cards out along the dotted lines.

Gameplay

1. Arrange the cards face down in a 4x5 array.
2. Players take turns flipping over two cards.
3. If a player flips over a picture of a tool and the correct name for that tool, the player has made a match.
4. They may keep the pair of cards and take another turn. If the player flips over two different images, two different names, or an image and a name that do not go together, the player's turn ends and they must flip the cards face down again.
5. The winner is the player with the most cards once no more matches are possible.
