Need help? Here are some questions to think about.

1. What color are the feathers? Do they have any patterns? Do you see a crest or muff? Are there any other unusual feathers?
2. Do the legs have feathers? What color is the chicken's skin? How many toes do you see?
3. What color is the beak? What color are the earlobes? What color are the eyes?
4. What kind of comb can you see?
